

Dear Fellow SSCA Member,

WARNING! The member website of the SSCA - that includes all of our email addresses, member phone numbers, and other identifying information- is believed to have been fraudulently accessed and likely scraped.

At minimum a fraudulent Email has now been generated to you and all our membership claiming it is from the SSCA trying to entice you to go to a false website on a Facebook venue.

Initial digital forensic investigation shows evidence of it being crafted 2 months ago by Wally Moran - who previously was involved in fraudulent activity and convicted in Canada. He was likely aided in what is believed to be a 'scraping' of a list by a third party outside SSCA. He may also have conspired with others; We are sad to advise we have found evidence that David Skolnick may have been involved with this fraudulently identified site dating back to 2 months ago as well.

This act is possibly in violation of United States Code, Title 18 Section 1030 et. seq. relating to computer access. False pretenses and illegal theft of your SSCA's intellectual property is also actionable. The email includes false claims, wrongly appropriates SSCA logos and identification and also fraudulently claims folks signed up for it. Actions in violation of Federal Computer Access Laws are subject to penalties including up to five years imprisonment, significant financial penalties, and civil penalties as well. B

Be cautious. We do not know what other uses will be made with your information including sale to additional unscrupulous persons. We have secured the website from further abuse by the two persons named above.

Feel free to contact us with any questions or concerns. We will attempt to protect SSCA and its members from wrongful actions such as this evidences.

I add that I am a retired Federal and State Prosecutor and currently an active member of the Iowa and US Supreme Court Bars. That this could take place under my Presidency of this noble organization offends and saddens me greatly.

Respectfully,

Edwin F Kelly
